2021-2022 Philadelphia ASHRAE Chapter Debra H. Kennoy Scholarship Guidelines

To apply for the Philadelphia Chapter of ASHRAE Debra H. Kennoy Scholarship, please complete the application and e-mail to: c021yea@ashrae.net

Other society and region scholarships can be found here: https://www.ashrae.org/communities/student-zone/scholarships-and-grants/scholarship-program

The Debra H. Kennoy Scholarship is intended to encourage female students to pursue studies and seek professions in the heating, refrigeration, and air conditioning industry (HVAC&R). Debbie was known for her exceptional dedication during her 20 year of service to the ASHRAE community. Colleagues within the industry came together to honor and celebrate her legacy through this scholarship. She was a true mentor to new ASHRAE members, especially to female engineers in a heavily male dominated industry, and made them feel welcomed and encouraged their involvement in the society. This scholarship is intended to be awarded to undergraduate students who are studying mechanical engineering, architectural or science & engineering, chemical engineering or other related HVAC&R engineering disciplines that meet the purpose of the Scholarship. While the first opportunity for the scholarship will be given to a female student who has graduated from a high school within the geographic boundaries of the Philadelphia Chapter of ASHRAE and/or attend an institution within these boundaries, all others will also be considered.

The amount of the scholarship award for 2022 will be $3,000.

1) Scholarship Award Requirements:
   a) Candidate must be a full-time student enrolled in a college program leading to a professional degree in a field related to heating, refrigeration, or air conditioning with preferable experience in thermodynamics or chemical engineering.
   b) Scholarship application of the donor shall be completed, filled out (typewritten), and submitted by the specified deadline to the Philadelphia Chapter of ASHRAE Student Activities Chair.
   c) Candidate must submit recommendations from two (2) separate full time faculty members.
   d) Candidate shall submit no more than two (2) page double spaced essay on the topic of “Why I am interested in a career in the heating, refrigeration, or air conditioning industry.”
   e) Candidate must include proof of enrollment in a qualifying college program, the completed application, faculty recommendations and essay by May 29, 2022.

2) Scholarship Award Procedure
   a) The application process will open March 11, 2022.
   b) All applications are due by May 29, 2022.
   c) The candidate must email all material to c021yea@ashrae.net
   d) All Applicants are encouraged to attend the Philadelphia Chapter of ASHRAE meeting to receive their award. The meeting is planned for June 2022. Details will be coordinated with the successful applicant.
   e) The scholarship winner will receive a certificate of scholarship. Checks can be sent directly to student or be mailed to the respective university or college to be applied to the student’s account.
